Conclusion

Livepetal Systems Ltd, a subsidiary of Technology Revolution Networks is an emerging digital marketplace that interconnects investors, tech experts, digital content creators, promoters and customers to share value and generate wealth for all categories of contributors

## The Vision

To build the preferred Digital Marketplace connecting individuals and businesses across the globe to exciting tech solution that practically enables them to achieve their full potential.

## The Mission

- To help people convert their passion, skills and knowledge into a thriving online business
- To help promoters achieve massive sales through Automation and Artificial Intelligence

## Giant Strides

We have provided cutting edge tech solutions for customers across globe for over a decade and we continue to evolve to confidently power the technologies of the future and generate wealth for our stakeholders and investors.

The emergence of Artificial intelligence (AI) has led to applications which are now having a profound impact on our lives. We have taken the bold step to integrate Artificial Intelligence into every solution we create and use it to automate the entire value chain process including promotion and sales.

# EMERGING DIGITAL MARKETPLACE

Leveraging the power of machine learning, artificial intelligence and automation to help individuals and businesses develop, deploy and sell quality digital solutions with speed and generate huge profit.

This AI powered marketplace of top selling tech and digital products covers the following categories:

## Online Courses
